COGNITIVE DEVELOPMENT

Subject Index

Ability self-perceptions, 190
Accuracy, 190
Action, 159
Adaptiveness, 448
Age, 33
Age differences, 373
Ambiguity, 407
Ambiguous figures, 407
Amnesia, 362
Analogical tasks, 214
Angular figure, 422
Anticipation, 362
Art, 576
Attention, 256, 373

Belief-contravening reasoning, 545
Binding, 256
Body, 321
Brain, 321

Capacity, 205
Causal cognition, 87
Causal reasoning, 87
Children's suggestibility, 1
Cognitive development, 87, 235, 279, 341
Cognitive skills, 427
Collaboration, 33
Color–form, 256
Complexity, 87
Conceptual development, 65
Conservation, 235
Conservation training, 235
Counting, 472

Deafness, 159
Development, 49, 242
Direct elicitation, 526
Division procedures, 388
Domain-specific, 137

Episodic memory, 362
Episodic structure, 526
Event related potentials, 19
Executive function, 256, 407
Explanations, 341

Face recognition, 49
False belief, 173
Familiarity, 19
Formal, 214
Frequency, 121
Future thinking, 341

Geometric module, 279
Goal attribution, 303
Goals, 159

Human face, 49
Hypothetical suppositions, 545

Imitation, 159
Infancy, 303
Infant chimpanzees, 49
Inhibition, 256
Intelligence, 190

Language acquisition, 19, 121
Language proficiency, 427

doi:10.1016/S0885-2014(05)00081-X

Lexical development, 19
Line copying, 422
Living and non-living, 137
Logic of division, 388

Make-believe suppositions, 545
Mathematical concepts, 65
Memory, 205
Memory impairments, 427
Mental time travel, 362
Mimesis, 503
Mind, 321
Mother's face, 49
Multiple-object tracking, 373

Narrative, 503
Narrative competence, 576
Narrative development, 526
Necessity, 235
Non-human agent, 303
Numerical equivalence, 472
Numerosity judgment, 448

One-to-one correspondence, 472

Parents' perceptions, 190
Peer, 33
Perception, 159
Performance, 173
Perpendicular bias, 422
Personal identity, 321
Photograph, 173
Play, 503, 526, 576
Play-prompted elicitation, 526
Playworld, 576
Preschoolers, 137
Pretense, 576
Private speech, 103
Problem solving, 214

Reasoning direction, 87
Recall, 33
Redescription, 65
Rule dimensions, 87

Selective attention, 242
Self, 341
Self-regulation, 103
Semantic development, 19
Shape bias, 256
Sharing, 472
Sharing continuous quantities, 388
Sharing discrete quantities, 388
Social interaction, 33
Source-monitoring, 1
Spatial, 242
Spatial memory, 279
Spatial orientation, 279
Strategies, 205, 242
Strategy choice, 448
Suggestibility, 427
Syntax, 121

Task difficulty, 103
Task performance, 103
Teacher evaluations, 190
Theory of mind, 407
Theory-revision, 65

Utilization deficiency, 205

Videogames, 373
Visual habituation, 303
Visual imagery, 407
Vocabulary spurt, 19
Vygotsky's theory, 103

Word learning, 19
Word order, 121
Working memory, 205, 373

2 year olds, 214
